There are two types of insurance plans for the South Harrison Community School Corporation (SHCSC) Technology Program available to students/parents. You are legally responsible for the repairs and/or replacement costs for your student's technology device. These insurance programs are designed to lessen your personal liability for the damage or loss of the technology device that is been provided to your child. The programs are optional. However, if you do not choose to participate in the one or either of the programs, you will be responsible for the full cost of repair and/or replacement. Your child's device must be returned in working condition at the end of each school year.
