

VISION SCREENINGS

Vision Screenings are conducted in August and September by the school nurse. Vision screenings are state mandated for students in Kindergarten or 1st, 3rd, & 8th grade. We also screen students in 5th grade. In addition, Kindergarteners participate in a more thorough vision screening completed by a local optometrist. This is called a MCT (Modified Clinical Technique).

HEARING SCREENINGS

Hearing Screenings are performed on students in Kindergarten, 1st, 4th, 7th, & 10th grade. This screening is performed by the Speech Therapist in each school at the beginning of the school year.

SCOLIOSIS SCREENINGS

The Indiana Department of Education no longer mandates scoliosis screening in the school system.
