Preparing for College & Careers

Career Speaker Form

We would like to invite adults in our community to serve as career speakers for our “Preparing for College and Careers” course. The students will be conducting self-assessments based on their interests, skills, and goals in order to gain valuable information when choosing a personal career path. Each student will also visit many career related websites which convey pertinent information on specific careers and opportunities. Students are expected to conduct career interviews using adults currently in careers of interest to them. As you know, a person working in the actual career field would provide an excellent resource for teens making career planning choices. We hope you will consider our invitation and become a valuable resource for teens looking to the future.

Thanks for your consideration,  
PCC Teachers and Students

Your Audience:

- 25-30 Eighth grade students per period
- Morning class periods > 8:00 -10:35
- Afternoon class periods > 11:55 - 3:10
- Please email the teacher to verify class times
