

South Harrison Community School Corporation intermediate and elementary schools utilize barcode scan cards in the cafeteria. Students are provided these on a lanyard at the beginning of the school year or upon starting new at a school. The cards are to be kept in the classroom and only to be taken to the cafeteria for meal use. Students are instructed on care of the cards and not to bend or take them home. The cards will be collected on the last day of school.

We do provide the first card free of charge. For the 2018-2019 School Year we will provide the initial card and one replacement card free of charge. Following these two cards, if the student damages or loses their card, there is a replacement fee of \$1.

Please encourage your child to take care of their card.

Thank you,

South Harrison Community School Corporation Food Services
